WOUNDED IN SHOULDER VICTIM ENTERS HOME INJURY NOT SERIOUS

(By Associated Press.) PARIS, Feb. 19.—Georges Clemenceau, aged 76, premier of France, was shot and slightly wounded in the shoulder as he was entering an automobile at his home to go to the war office. Five shots were fired by the assassin, Emile Cottin, aged 25, dressed as a workman, was arrested. The police are inclined to believe him a Russian. He has long light hair and is tall.

Henry Moulon, a lawyer's assistant, told the Associated Press that when he heard the first shot he believed Americans were firing in the air "as they are in the habit of doing." He rushed out of his shop and when he saw the crime, he cried: "They have assassinated Clemenceau!" He stood with the assistant who dropped his revolver and held up his hands. Cottin gathered and the crowd beat Cottin before the police rescued him.

Policeman Gaurat was wounded slightly in the eye. He said the bullet shattered all the windows of the premier's automobile.

At the first shot Clemenceau tried to open the automobile door, which stuck. He was able to walk into the house where, shortly before noon, the Associated Press was informed he was sitting in a chair, smoking and laughing, with a slight temper.

Cottin is a dangerous anarchist known as "Milon."

Two other bullets grazed Clemenceau. Another man arrested claims he was only a spectator.

Clemenceau took the train and guided France through the critical stages of the war. He now heads the French delegation to the peace conference where he resides. His aggressive personality brought him a large and loyal following. Formerly, known as a radical, he was later known as a representative of the moderates. He was given a striking vote of confidence by the chamber of deputies just before the peace conference.

(By Associated Press.) LONDON, Feb. 19.—An Exchange dispatch says the bullet entered Clemenceau's left shoulder and was located near the right shoulder, but not removed. All activity must suspend temporarily in the whole conference plan. It is believed that all promises favored speedy action on the peace treaty signed Clemenceau.
